Deputy Director for Support

Foreign Intelligence Officers in Liaison with CIA in the
United States

The Inspector General's "Inventory of Foreign Intelligence
Officers in Liaison with CIA in the United States," dated
10 January 1964

1. The DDCI has approved the recommendations made by the Inspector
General in paragraph 8 of the referenced report (copy attached). I
understand they were coordinated with you and with the Deputy Director
of Security in draft. Will you take the actions needed to carry out the
recommendations.

2. Although you may find it necessary to revise Agency regulations,
I see no need to delay establishing in the Office of Security a register
of foreign liaison contacts in the United States. Accordingly, I am
forwarding a separate action memorandum to each of the Deputy Directors
requesting that they furnish the pertinent information to the Director
of Security without delay.

Lyman B. Kirkpatrick
Executive Director
